

Equipment return instructions

Issued 2026-10-14 | Alex Morgan | Document s04-instructions

Assigned equipment

Alex Morgan | Demo asset NS-LT-042. Return one company laptop, charger, access badge and security key. The asset ID is fictional, not a device serial number.

Return options

Return in person on October 16, 2026 or use the demo prepaid collection arranged by Northstar IT. If shipping is required, obtain written approval for the handover date.

Confirmation rule

Signing the return form acknowledges the instructions only. A carrier delivered event is not an inventory receipt. The task closes only when Northstar IT confirms all listed items were checked in.

Account cleanup

Follow company IT guidance for personal-account sign-out. Do not remove company security controls. No corporate shipping account number or live return address is provided.
