

First-week onboarding checklist

Issued 2026-10-12 | Alex Morgan | Document s08-checklist

Schedule

Alex Morgan | First working day October 19, 2026. Complete the People Portal profile by October 15. Payroll payment preference is due October 20; the employee enters it directly in the secure portal.

Dependencies

Profile verification releases the screening invitation. Laptop setup must finish before the virtual welcome session. Do not mark downstream tasks complete merely because the prerequisite is complete.

Separate work items

Profile verification, screening clearance, employment-verification paperwork, payroll preference, laptop setup and orientation attendance are separate tasks. The same task may be mentioned in several reminder emails.

Unknown details

The laptop appointment time and location are not yet assigned. Ask Orbit IT to confirm them. Benefits election remains a separate task due November 17.
